

Zulma Rocio Martinez

Frontend Developer · React · TypeScript · Next.js

Bogotá, Colombia · zrmartinezg@gmail.com · linkedin.com/in/zulma-rocio-martinez · github.com/Rocio01

Summary

Frontend developer with 4+ years building production web applications in React, TypeScript and Next.js. As the sole frontend developer of a UK healthcare platform, owned the full lifecycle — architecture, API integration, testing and deployment — and contributed backend work in Python/Flask. Comfortable working autonomously in remote, English-speaking teams.

Skills

Frontend: React, TypeScript, Next.js, JavaScript, HTML, CSS, Tailwind CSS

State & data: TanStack Query, Zustand, Zod, REST APIs

Auth, infra & tooling: Auth0, Cloudflare Pages, Git, Figma

Testing: Cypress (E2E)

Backend: Python, Flask, SQLAlchemy, Ruby on Rails

Experience

Frontend Developer — Cressco (Remote, Bogotá)

Jun 2022 – Sep 2026

- Sole frontend developer for a UK healthcare care-management platform (React, TypeScript, Next.js), owning architecture, feature development, QA and deployments end to end.
- Took part in migrating the platform to blue-green deployments for zero-downtime releases.
- Built a reusable data-table component with server-side pagination and filtering.
- Built the scheduling module: one-off and recurring appointments (RRULE), cancellation flows, and check-in/check-out.
- Integrated Auth0 authentication, handling token expiration, automatic logout, and sessions in browsers that block cookies.
- Delivered invoice emailing and compliance-status features, working directly with business stakeholders.
- Managed production, staging and release environments on Cloudflare Pages with custom DNS; wrote Cypress E2E tests for critical flows.
- Contributed backend features in Python (Flask, SQLAlchemy).

Education

Microverse — Full-Stack Web Development Program (Remote)

Aug 2020 – Jan 2022

- Intensive remote program based on pair programming with developers across international teams.
- Built projects with HTML, CSS, JavaScript, Ruby on Rails, React and Redux.
